

# BULLET GIRL

## TRAVEL INSTRUCTIONS

Please remember that your unique handcrafted piece of Bullet Girl jewelry is a blank bullet and will not be permitted to be worn or checked-in with your carry on luggage. To travel with this jewelry, it must go in your checked luggage.

## CARE INSTRUCTIONS

Bullet Girl Jewelry is made out of real bullet blanks that have been plated. Due to the natural metals of the bullet, the color may change over time. Bullet Girl recommends that you store your pieces in the pouch provided with your order. Proper storage helps prevent scratching of stones and metal. It is best to keep your pieces away from extreme heat or moisture. Bullet Girl recommends applying perfume and other sprays or lotions before putting on your jewelry. Jewelry should be removed prior to showering. It is normal for jewelry to tarnish with time and wear. To polish, use a cotton cloth and/or soap and water and gently rub surface of jewelry. Do not use silver polish, or jewelry polishing cloths on Bullet Girl jewelry.

Please be careful when removing your jewelry. When removing, gently push on opposite ends of the closest bullets to the clasp. Avoid opening the clasp itself, as it may deteriorate.
